

How to copy books into a device (ereader, tablet, smartphone..)

Copy one book at a time

Connect the device to the PC.

Select the book in the Calibre catalog.

Right-click the mouse and select "Open containing folder".

Copy the book into the ereader or smartphone.

Copy multiple books at the same time in the desired language

Connect the device to the PC.

Select the books in the Calibre catalog of the chosen language.

Click with the right mouse button and select "Save to disk" and then "Save single format to disk".

Select the format to copy and then the PC folder to copy them to.

In doing so, you copy the covers and metadata as well as the book.

To have only the books go to the search field of the folder and write .epub or .mobi.

All the books are then selected in the required format.

Then copy them into the device.

Copy all books at once in all languages

Go to the C partition: -> Caliber Portable -> Caliber Library

In the Search field at the top right, type .epub or .mobi

Copy all the books into the ereader or smartphone.
